## The John M. and Mary Jo Boler School of Business

The mission of the Boler School of Business is to develop and inspire tomorrow's leaders through educational excellence in the Jesuit tradition. Business education began at John Carroll University with the establishment of a Department of Business Administration in 1934 in the College of Arts and Sciences to provide professional training for students aspiring to positions of responsibility in the business world. This department was expanded in 1945 into the School of Business, and in 1974 expanded its offerings to include a Master in Business Administration degree. In March 1996, in recognition of the many generous contributions to the University from John M. and Mary Jo Boler, the School was named after them. Mr. Boler is a 1956 alumnus of the School. In 2001, a Master of Science in Accountancy degree was added to the Boler School's graduate offerings. The accountancy and business administration programs are accredited at both bachelor's and master's levels by the Association to Advance Collegiate Schools of Business (AACSB International).

## The Center for Service and Social Action

**Mission Statement:** The Center for Service and Social Action seeks to educate for justice by offering opportunities for learning through service and advocacy. Growing from a rich Catholic intellectual tradition, we promote service and advocacy that inspires a deeper commitment to those most in need. The Center connects the campus with the local, national and international communities through sustained partnerships that enable John Carroll community members to become men and women for and with others.

### **Service and Service-learning at John Carroll University**

**Service** is an integral part of students' experiences where interactions with community members whose own lived experiences are different than their own can serve to inspire a lifelong commitment to those most in need.

**Service-learning** integrates academic study with meaningful service-based interactions with community members who are most in need to deepen students' knowledge of course content through structured class discussions and reflections.

## The Center for Career Services

The Center for Career Services focuses on the career development of JCU students, while also providing services to alumni. Who am I and what am I passionate about? Where am I needed in the world? How do I get there? The process of answering these questions is career development. Several Career Education Courses are offered for students in relation to those three questions. The following courses are 1-credit hour (unless noted otherwise).

*Who am I and what am I passionate about?*

- CE-111: Exploring Your Options
- CE-101: Introduction to Careers

*Where am I needed in the world?*

- CE-121: Introduction to the Accounting Profession
- CE-122: Introduction to Careers in Psychology

*How do I get there?*

- CE-131: Introduction to the World of Work
- CE-199, 102, 103, 104: Academic Internship (0-3 credits)

Please refer to the Undergraduate Bulletin for information on prerequisites for Career Education courses.

In the 2011-2012 academic year, 213 students across different undergraduate majors completed a Career Education course. All students enrolled in CE courses complete a My Vocational Situation (MVS) assessment at the beginning and end of each course to assess readiness for career choice in terms of vocational identity, need for career information, and barriers to career choice. MVS results are overwhelmingly positive and higher across the board upon completion of a CE course.

My Vocational Situation (MVS) assessment results for courses taken during the 2011-2012 academic year follow.

## Changes in Race/Ethnicity Reporting

In fall 2010 the University began reporting student and employee race/ethnicities to the federal Integrated Postsecondary Education Data System (IPEDS) under revised race/ethnicity standards. Race/ethnicity data is ascertained by self-reported responses to surveys issued by the University. The survey has a two-question format: respondents are first asked to report whether they are of Hispanic/Latino ethnicity and then to select one or more of the given racial categories. In IPEDS reporting, those who select Hispanic/Latino are only reported in that category. Those not reporting Hispanic/Latino who select a single race are reported in the selected category, whereas those who select two or more racial categories are reported in the category 'Two or more races'. Non-resident alien status is no longer requested in the race/ethnicity survey; it is required that individuals with this status are reported as such to IPEDS in lieu of their race/ethnicity. The table below indicates the previous and current IPEDS race/ethnicity categories.

Previous IPEDS Categories	Current IPEDS Categories
American Indian or Alaska Native	American Indian or Alaska Native
Asian or Pacific Islander	Asian
Black, non-Hispanic	African American or Black
Hispanic	Hispanic or Latino or Spanish Origin of any race
Asian or Pacific Islander	Native Hawaiian or Other Pacific Islander
White, non-Hispanic	White
	Two or More Races or Multiracial
Other or unknown	Other or unknown
Non-Resident Alien	Non-Resident Alien (not collected in survey)

\*Prospective undergraduate students can consult the John Carroll Net Price Calculator for an estimate of federal, state, and institutional aid eligibility at: <https://jcu.studentaidcalculator.com/welcome.aspx>. The Calculator helps families look beyond the listed tuition and fees to better understand the net price and actual out-of-pocket costs of attending the University. The John Carroll Net Price Calculator is based on 2012-2013 federal, state, and JCU institutional costs and policies of awarding. It is intended for first-time undergraduate students who meet citizenship qualifications as determined by the FAFSA.

## The Beaudry Award, 1951 - 2012

For four years the Sodality at John Carroll had given an award to the student who had done the most for the University during that year. At the fifth annual Sodality dance in 1951 the award was changed in two ways. It was henceforth it was to be called the "Robert Beaudry Man of the Year Award" to commemorate the deceased Sodalist's memory. Also, in the future only seniors were to be eligible as recipients.

The Beaudry Award is now given each year at graduation to the young man or woman voted most deserving of the honor by fellow students. As in the past, the award recognizes outstanding service in three areas: Christian leadership, academic achievement, and contributions to the University community. In 2012, for the first time, two graduating students are recipients of the Beaudry Award.

## Information Technology Services

The Information Technology Services Department (ITS) oversees and provides assistance for most computer and network functions, video services, and telephone services on campus. The main office is located on the fourth floor of Rodman Hall.

The major equipment serving the campus consists of:

- 12 Intel-based servers – used for video streaming, voicemail, systems management and academic applications.
- 4 IBM pSeries AIX Servers – used for the Banner 8 administrative software system and the Luminis Portal system, which are both supported on Oracle 11 database software.
- 2 Sun Solaris Servers – used for network support & management.
- 2 Clustered Network Appliance Storage Servers providing 11 terabytes of storage for campus network users and 3 terabytes of storage for administrative systems (Banner).
- 6 VMware servers with 9 terabytes of storage running 70 virtual systems, 30 virtual classroom desktops
- 13 TBs of storage for virtual server and desktop system backups

The Campus Wide Gigabit Ethernet network (JCUNet), provides connection to all faculty and administrative offices and student residence rooms. The campus network has a Gigabit connection to the AT&T Opt-E-Man network. This Gigabit connection connects to the Ohio Academic Resources Network (OARNet), with a capacity of 250 MB to the commodity Internet and 50 MB to OARNet intra-Ohio which provides access to other educational institutions within the state. The Gigabit connection also connects to OneCommunity, a Cleveland based regional provider, with a capacity of 250 MB to the commodity Internet, bringing the total commodity Internet bandwidth to 500 MB.

JCUNet can be accessed everywhere on campus through computers using wireless technology, which was upgraded to the latest 802.11n standard in the summer of 2011.

### Customer Service Operations

The Customer Service Operations area of ITS provides a full spectrum of support services for students, faculty, administration and staff including help desk, desktop/classroom support, instructional design/instructional technology support, videography, and other instructional media support for academic and university events.

### Center for Digital Media (CDM)

The CDM, located on the main floor of Grasselli Library, is dedicated to advancing the use of technology to enhance teaching, learning, and research, through a combination of faculty workshops, multimedia development assistance, and one-on-one consultations. The CDM absorbed the functions of the previous Faculty Technology Innovation Center, as well as added a new emphasis on faculty collaboration with our technologists in order to help JCU keep its “edge” in technology enabled education. The CDM is equipped with the latest technology resources and is staffed collaboratively by technologists from several University departments.

### Administrative Software System

The Banner integrated software system supports Admissions and Financial Aid, Registrar, Student Life, Alumni/Development, Human Resources, Finance and other related services throughout the campus; most of these functions are fully Web-enabled. Campus event scheduling, including a Web accessible event calendar, is supported by Resource25 software. In addition, Housing, Parking, and Judicial systems are provided through a separate application from Adirondack Solutions that is closely tied to Banner.

### Information Technology in Residence Halls

All student residence rooms have a connection for each individual resident providing high-performance access to the Internet, and campus computing/network resources. Each room is also equipped with HD cable TV. Wireless access is available in all residence rooms.

### Information Technology in Public Labs and Classrooms

There are more than 600 PCs and 30 Macs installed in classrooms and labs with full high-performance access to the campus LAN and the Internet at various locations on campus, including the following:
